

# Vadims Procijs – Solo Project – Tests and Use Cases

## 1. Login Acceptance Test Working Test

```
PS C:\Users\vadim\OneDrive - Technological University Dublin\Year 3\Year 3 Sem 2\Web Framework\WedFramework\Codeception PHP Testing Framework v5.0.10 https://helpukrainewin.org

App\Tests\acceptance Tests (1) -----
+ Login_Page_Contents_Cest: Test login form(0.82s)
-----

Time: 00:00.913, Memory: 12.00 MB

OK (1 test, 2 assertions)
PS C:\Users\vadim\OneDrive - Technological University Dublin\Year 3\Year 3 Sem 2\Web Framework\WedFramework\Codeception PHP Testing Framework v5.0.10 https://helpukrainewin.org
```

## 2. Login Acceptance Test Not Working

```
1) Login_Page_Contents_Cest: Test login form
Test tests\acceptance\Login_Page_Contents_Cest.php:testLoginForm
Step See "Welcome, myusername!"
Fail Failed asserting that on page /login
--> Log in! body { background-color: saddlebrown; } Home CRUD order CRUD person CRUD payment record Login Username Password Login Please sign in Username Password Sign in Loading... Loading the web debug toolbar... Attempt # Cancel .sf-toolbar-reset { --sf-toolbar-font-family-system: system-ui, -apple-system; }
[Content too long to display. See complete response in 'C:\Users\vadim\OneDrive - Technological University Dublin\Year 3\Year 3 Sem 2\Web Framework\WedFramework-SoloProject-FurnitureFactory\crud01\tests\_output\' directory]
--> contains "Welcome, myusername!".

Scenario Steps:

8. $I->see("Welcome, myusername!") at tests\acceptance\Login_Page_Contents_Cest.php:24
7. $I->dontSee("username could not be found") at tests\acceptance\Login_Page_Contents_Cest.php:18
6. $I->click("Login") at tests\acceptance\Login_Page_Contents_Cest.php:16
5. $I->fillField("#inputPassword","mypassword") at tests\acceptance\Login_Page_Contents_Cest.php:15
4. $I->fillField("#inputUsername","myusername") at tests\acceptance\Login_Page_Contents_Cest.php:14
3. $I->seeCurrentUrlEquals("/login") at tests\acceptance\Login_Page_Contents_Cest.php:13

Artifacts:

Html: C:\Users\vadim\OneDrive - Technological University Dublin\Year 3\Year 3 Sem 2\Web Framework\WedFramework-SoloProject-FurnitureFactory\crud01\tests\_output\App.Tests.acceptance.Login_Page_Contents_Cest.testLoginForm.fail.html
Response: C:\Users\vadim\OneDrive - Technological University Dublin\Year 3\Year 3 Sem 2\Web Framework\WedFramework-SoloProject-FurnitureFactory\crud01\tests\_output\App.Tests.acceptance.Login_Page_Contents_Cest.testLoginForm.fail.html

FAILURES!
Tests: 1, Assertions: 3, Failures: 1.
PS C:\Users\vadim\OneDrive - Technological University Dublin\Year 3\Year 3 Sem 2\Web Framework\WedFramework-SoloProject-FurnitureFactory\crud01>
```

### 3. “Test some database fixtures”

In this database test I checked if “john doe” - user is present in the database

```
OK (2 tests, 2 assertions)
```

```
PS C:\Users\vadim\OneDrive - Technological University Dublin\Year 3\Year 3 Sem 2\Web Framework\WedFra
```

```
Codeception PHP Testing Framework v5.0.10 https://helpukrainewin.org
```

```
App\Tests\acceptance Tests (2) -----
```

```
+ Database_Fixtures_Cest: Test database(0.00s)
```

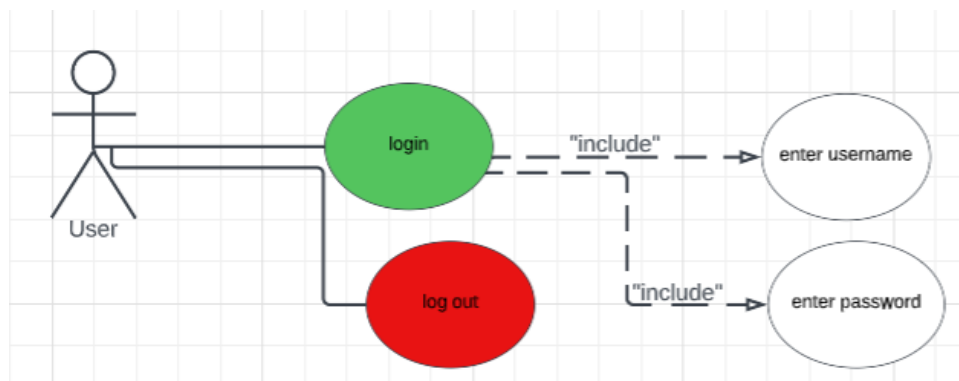

```
+ Login_Page_Contents_Cest: Test login form(0.70s)
```

```
-----  
Time: 00:00.803, Memory: 12.00 MB
```

```
OK (2 tests, 2 assertions)
```

```
PS C:\Users\vadim\OneDrive - Technological University Dublin\Year 3\Year 3 Sem 2\Web Framework\WedFra
```

### Login/Log out Use Case

### Register use case
